

## MARK OF MISSION 3

Responding to human need by loving service...

through supporting the work of the 'Lighthouse Project' in Byker.

Of course, you do not have to go to the other side of the world to see God's kingdom growing through the impact of thoughtful mission. There are many needs very close to home that deserve our attention and to benefit from our resources. One project that is in need of financial and practical help is The Lighthouse Project in Byker.

The project is a church-based outreach programme to the youth of the Byker area. They have several short-term projects where financial gifts will have a big impact.

If you want to know more then please follow this link: [bykerchurch.co.uk/lighthouse-project/](http://bykerchurch.co.uk/lighthouse-project/)

The first stage of this long term project is to restore the church building of St Michael's in a way that will best serve the need of the youth in a community that has many social issues. At the moment they have had to put many of their activities on hold, but they are doing a lot of work online in supporting vulnerable groups. They have smaller projects we can give to, that are not as big as the church refurbishment project. They are always in need of our prayers and well as our financial support.

You can follow them at [facebook.com/MINEYouth/](https://www.facebook.com/MINEYouth/) where you will find the Facebook page for the youth work which gives us up to date information for our prayers.
